

ANDERSON 
PLASTIC EDGE PROTECTORS

Anderson Die & Manufacturing, manufacturer of Anderson Pots®, has been an innovator in manufacturing reusable plastic edge protectors for the packaging industry since 1964 when we were issued patent #192,385 for our original plastic edge protector.

Our edge protector design is so good a leading competitor and strapping industry giant sells exact copies of our edge protector down to even including our now expired patent on its products according to their web site photographs (or maybe they are using our edge protectors rather than their own in their web site photography?) Our protectors work equally well with steel, polypropylene or polyester strapping.

Our **Standard Size Edge Protectors** were designed for ¾” strapping. Our **Giant Edge Protectors** are designed to handle 1¼” strapping. We sell to packaging industry distributors only – we do not sell in small wholesale quantities or direct to your customers.

Standard Edge Protectors, first photo above, are the raised edge design shipped 2,000 to a carton, 30 cartons to a pallet. Minimum order quantity is one pallet (60,000 units).

Giant Edge Protectors, second photo, have a raised edge design and slots for the strapping. They come 450 per carton, 30 cartons to a pallet. Minimum order quantity is one pallet (13,500 units).

	Standard Size	Giant Size
		
<i>Material:</i>	HDPE	HDPE
<i>Width:</i>	2”	2¾”
<i>Height:</i>	1¼”	2¼”
<i>Color:</i>	white	white
<i>Strap Size:</i>	¾”	up to 1¼”
<i>Carton:</i>	2,000	450
<i>Pallet:</i>	60,000	13,500
<i>Design:</i>	raised edges	raised edges & strapping slots

Available through Alpine Building Materials, B2B Industrial Products, Multi-Fab Inc, Gulf Packaging and other fine distributors of strapping materials. Beware of imitations and copies. Ask for Anderson Edge Protectors by name.
